

## Help Musicians UK National Mentoring Bank Pilot Programme

### What exactly is mentoring?

**Mentoring** is the perfect tool to help you succeed in music. Help Musicians UK (HMUK) would like to hear from mentors and mentees who want to learn from each and achieve a path to a great career.

We define mentoring as specialist advice from one person (mentor) to another (mentee) to help mentees think for themselves. Mentoring is distinct from counselling and coaching and is more comprehensive than networking. It usually takes the form of a one to one relationship of a set period of time.

Applicants to the National Mentoring Bank pilot programme will be chosen according to their suitability for mentoring as defined above.

### What is the Help Musicians UK National Mentoring Bank?

**HMUK** wants a world where musicians thrive and mentoring can be pivotal to building a successful career and navigate the music industry today.

HMUK is inviting applications for both mentors and mentees to join our pilot programme which will feed into the creation of a new National Mentoring Bank for everyone working in the sector

The National Mentoring Bank is designed to be an industry-wide resource of skilled and trained mentors who can support others working in the sector (mentees) to maximise their potential, develop skills, build networks and progress their careers.

#### Apply to be a mentor

For those who want to give back some of the knowledge and experience, collected across their successful careers.
