

Youth Production Network Launch YPN Training Services

With a 100% success rate for on-site work experience and training in live event production, the YPN have now set their sights on bringing their knowledge in to the classroom, with the YPN Training Services. Available in either a Half Day Masterclass, where the students are introduced to the YPN and YPN Crew Chiefs, or as a full day Workshop seeing the YPN Crew Chiefs walk groups of students through the basic necessary requirements and team structures needed for setting up an event, while actually doing it, the YPN Training Services cater for all.

YPN Masterclass:

The YPN Masterclass is the definitive introduction to the YPN. Presented by the YPN Crew Chiefs, who have all graduated through YPN work experience and training to become operating freelancers themselves, students get a unique opportunity to learn the current processes of Event Production. The YPN Masterclass also gives students the opportunity to learn the skills needed to work within a production team and connect with YPN for ongoing training opportunities.

YPN Masterclass fee: £300 (VAT, Travel and Catering not included)

YPN Workshop:

The YPN Workshop is a brand new and exciting project, developed by the YPN team to create a unique, 1 day training programme on the essentials of putting a live event together. The YPN Crew Chief team guide students through all the essential steps of live event production, and then support them to create and run their own event at the end of the day. The YPN Workshop begins with an introduction to the YPN and the roles required for an event, before the students are split in to 3 groups, Production Management, Lighting and Sound to build and engineer an event at the end of the day. The event is run live, and the students get the chance to experience the excitement and real life pressure of running an event.

YPN Workshop Fee: £750 (VAT, Travel, Catering and Additional Production not included)

The Youth Production Network is a worldwide organisation set up in 2010 to help young people interested in live event production gain valuable work experience and onsite training. YPN provides the vital link between a training environment and live onsite event production.

Since it's conception, YPN has placed crews on productions of the highest level in the world, including the 2013 **Chime For Change** concert at Twickenham Stadium in London, 2010 **World Cup Kick Off Concert** in Soweto SA, 2012 **Olympic Torch Relay Big 4 Concerts** and **Hyde Park Finale** Concert and the 2013 **World Cup Brazuca Launch** in Rio De Janeiro Brazil as well as many others.

The YPN Training Services have been designed in a unique way to allow them to be tailored to fit any college or school environment. To discuss booking a Workshop or Masterclass, or to find out more information, go to www.YPN.international
